MANAGING DIRECTOR'S MESSAGE

Dear Shareholders,

We are pleased to present WindForce PLC's Interim Report for the quarter ended 30 June 2025. The first quarter has laid a strong foundation for the financial year, with continued momentum across our diversified renewable energy portfolio.

Overall Financial Performance:

- Profit After Tax (PAT): LKR 832 million - a 28% increase from LKR 652 million in Q1 FY 2024/25.
- Consolidated Revenue: LKR 2.1 billion - a 36% increase from LKR 1.6 billion in the corresponding quarter last year.

Segmental Performance

- **Wind** - LKR 977 million - up 13% year-on-year from LKR 863 million.
- **Solar** - LKR 578 million - up 44% year-on-year from LKR 402 million.
- **Hydro** - LKR 227 million - up 7% year-on-year from LKR 212 million.

Project Updates:

Rividhanavi 100 MW Solar Power Project - Siyambalanduwa

Steady progress continues on our flagship project. Foundation work for transmission facilities is underway, with design and engineering of the solar park advancing. Access roads and the elephant fence have been completed. While the finalisation of the land lease agreement with the Sri Lanka Sustainable Energy Authority has been slightly delayed, active steps are being taken to conclude the process.

Sooryashakthi 10 MW Solar Power Project - Vavunativu, Batticaloa

Commissioned on 26 July 2025, this project developed in partnership with Vidullanka PLC and executed under WindForce's full EPC scope - has transformed 27 acres of high-salinity land into a productive renewable asset. Featuring 22,048 photovoltaic modules and 34 string inverters, it is expected to contribute approximately 19.5 GWh annually to the national grid.

As we progress through the year, WindForce PLC remains committed to sustainable growth, operational excellence, and innovation. Our strategic investments and disciplined execution continue to deliver strong returns while supporting Sri Lanka's transition toward cleaner energy.

We extend our appreciation to our shareholders, partners, and stakeholders for your trust and support. With a robust project pipeline and a clear vision, we are confident in delivering long-term value in the quarters ahead.

Sincerely,

Manjula Perera
Managing Director

QUARTERLY FINANCIAL REVIEW – 2025/26 Q1

Against the backdrop of economic recovery, stable macroeconomic fundamentals, and ongoing efforts to transform the energy sector - particularly the Sri Lankan government's prioritization of renewable energy – WindForce (WF) has achieved growth in capacity, generation, revenue, and profitability in the current quarter, consistent with its medium-term performance trajectory.

This quarterly financial review compares the performance of the current quarter (Q1 2025/26) with the corresponding quarter of the previous year (Q1 2024/25) to account for seasonality and avoid distortions in the insights gained from the analysis. Furthermore, the quarterly review examines both cash and non-cash one-off items recorded in the profit and loss statements for the current and comparative periods to better highlight implications on free cashflow.

Capacity Mix (MW) - Total Portfolio

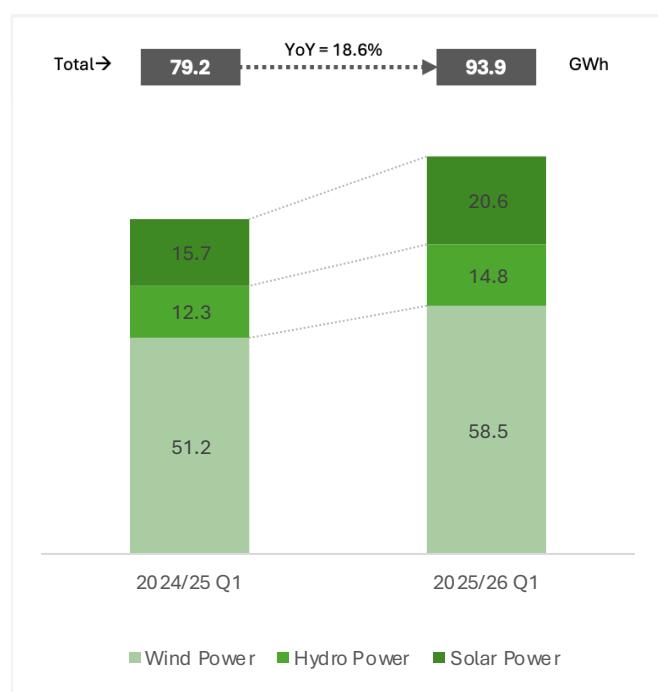

Total capacity of WF is depicted in the graph to the left, along-with the segmented capacity mix by wind power, hydro power, and solar power.

Total generating capacity of subsidiaries increased by 6.1% year-on-year to 134.5 MW in 2025/26 Q1 contributing to the growth in consolidated revenue, whilst the total capacity of the portfolio marginally dropped to 242.8 MW. The net increase of 7.7 MW (ie. 6.1% YoY growth) in subsidiaries is attributable to the acquisition of a controlling stake in Solar Universe resulting in change of classification from associate to subsidiary, commissioning of a new plant, and full and partial disposal of two plants [all in solar power segment] as follows:

1. Acquisition of a controlling stake of Solar Universe as of Aug 2024 with 10 MW capacity
2. Commissioning of Kebitigollewa Power Plant as of Aug 2024 with 10 MW capacity
3. Partial disposal of 10.2 MW capacity of Suryadhanavi
4. Full disposal of 2.1 MW capacity of Hirujanani

Generation Mix (GWh)

Total power generation [in GWh] of subsidiaries reflected in consolidated revenue of WF is depicted in the graph to the left, along-with the segmented power generation mix [in 2025/26 Q1] by wind power, hydro power, and solar power.

In Q1 2025/26, total power generation from subsidiaries increased by 18.6% year-on-year, while capacity grew by 6.1% over the same period. Although a net capacity addition was recorded in the solar segment, the generation growth was primarily attributable to operational factors: a higher volume of maintenance work in Q1 2024/25 had temporarily reduced generation in that period, whereas relatively uninterrupted operations in Q1 2025/26 - following upkeep efforts in the prior year - contributed to the increase in power generation to 93.9 GWh.

In Q1 2025/26, quarterly revenue increased by 35.5% year-on-year to LKR 2,124 million, primarily driven by higher generation volumes resulting from both capacity expansions and increased power generation following upkeep work carried out in prior periods, as outlined above. Additionally, improved top-line performance in smaller segments, including automobile segment and EPC income, contributed to the revenue growth recorded in the current quarter.

Tariff Performance

WF benefits from higher tariffs associated with newly commissioned power plants added to its portfolio, while revenue is partially offset as older plants transition into contracted tariff adjustments during their SPPA life cycles.

In Q1 2025/26, the positive impact of higher tariffs from newly commissioned plants marginally outweighed the effects of tariff revisions in older plants. This outcome was primarily driven by management's effective and efficient capital allocation within the competitive industry landscape in which the company operates.

1. Billing under the Standardized Power Purchase Agreement:

By nature, is a delayed settlement by the CEB which was partially received in 2024/25 Q1 and is non-recurring by nature. This denotes a one-off adjustment made across the sector by all energy producers of the island.

2. Goodwill Impairment:

This is attributable to six acquisitions made by WF in the past, for which, an impairment provisioning was made based on VIU estimates as per management projections and company auditor's review.

3. Share of results of equity accounted investee:

This is the share of profits generated from associates, where the same delayed settlement highlighted in point 1 above resulted in higher profits from associates in 2024/25 Q1 and is considered non-recurring by nature.

4. Income Tax Expenses:

Income tax for 2024/25 Q1 includes taxes applicable on billings under the Standardized Power Purchase Agreement highlighted in point 1 above.

One-off and Other Items – Company P&L

Extract of the Three months ended Company P&L

In LKR Millions	2025/26 Q1	2024/25 Q1
Revenue	316	145
Gross Profit	273	127
Profit from Operating Activities	63	(62)
Finance Income	104	976
Profit before taxation	151	891
Dividend Tax	(10)	(104)
Profit after Taxation	142	789

5. Finance Income:

Finance income constitutes dividend income received from subsidiaries and associates. The drop in the same is observed predominantly due to dividend of 2024/25 Q1 mainly arising from income under the standardized Power Purchase Agreement (SPPA) with the Ceylon Electricity Board (CEB), following delays in settlement, which, by nature, is non-recurring [Similar to point 1 above].

Review Summary - 2025/26 Q1 Financial Performance

In the current quarter, WF recorded growth in power generation driven by the commissioning of new plants and reduced downtime in older plants following upkeep efforts undertaken in prior periods. Further, the positive impact of higher tariffs from newly commissioned plants marginally outweighed the effects of tariff revisions in older plants, supporting year-on-year growth in recurring revenue. With one-off items normalized, and against the backdrop of a more stable economic and industry outlook positioned for growth, revenue and profitability results along-with growth in capacity and generation indicate that WF has delivered strong performance in the current quarter consistent with its medium-term performance trajectory.

Notes :

1. Finance income declined by 89% compared to the same quarter last year, mainly due to Q1 of FY 2024/25 which included LKR 930 million in dividend income. That dividend arose from income under the standardised Power Purchase Agreement (SPPA) with the Ceylon Electricity Board (CEB), following delays in settlement.
